TESTIMONIALS

“

I recently had the pleasure of meeting Dr. Samantha when searching for a keynote speaker for our annual leadership conference. Her expertise within a broad spectrum of leadership development topics was particularly beneficial for us. For our keynote, we were seeking a professional who could provide both insights, as well as directional guidance, to our various levels of leadership, in areas including change management, leading multi-generational teams and manage business growth.

She was a delight to work with, during the planning process, and successfully delivered on our expectations. In addition to the keynote address that delved into each of these areas, she provided valuable follow up and engagement by also leading small group sessions, to reinforce some of the teaching from her keynote, as well as furthering the dialog around effective change management.

We received a lot of positive feedback, post-conference, regarding her presentations. I would highly recommend her for similar engagements.

Ellen Duncan, Chief HRO, Service Experts

“

"Dr. Samantha Madhosingh is impressive! Her authentic and richly knowledgeable insights transform and empower her audiences. She's a joy to work with and one of our top-rated speakers at eWomen Network.
